1	<u>Discussion with member of Dairy Cooperative</u>	<p>Visit of Angadh village for Women Dairy Cooperative activities. The Intervention was started in 1996 when women were not allowed to interact with outsiders. Today about 110 women's are regular members of Dairy cooperative and average milk collection is about 500 ltr. All kinds of management and operation look after by group of women only. They spent their income towards Animal feeding and care, house hold expenses and children education. Recently, They visited Kutch to learn dairy practices and other income generation activities. They are planning to expand their scope of work in different activities.</p> <p>Dairy cooperative president has passed std.10th exam after joining this movement. She look after all kinds of management activities of dairy cooperative and maintaining records on computer. Other members are not much educated but they were effectively managing milk collection activities including fat measurement. They are also providing weekly free milk to children of nearby anganwadi centre.</p>
2	<u>Discussion with Anganwadi Worker and Helper.</u>	<p>Another project visited was for monitoring support provided for 60 Anganvadi Centers. Organisation is providing day to day monitoring and pre-primary education support to 60 Angawadi Centers. Organisation has appointed one coordinator and two supervisors to monitor 60 aganwadi centers.</p> <p>Angadh angawadi was one of the intervention aganwadies. While discussing with anganwadi worker and helper. The coordinator and supervisor appointed by Deepak foundation is visiting their aganwadi anytime twice in a week. They check attendance, food quality, daily activity schedule, and collect required data. Organisation has provided uniform and toys to these children. Weekly milk supply from nearby dairy cooperative. There were some improvements claimed by Aganwadi worker like regular timing 9:00 am to 3:30 pm, increase in attendance because of uniform, improvement in data collection etc.</p>
