

Osmosis Centre and Educational Games Library was set up in 2010 as a charitable trust under the Bombay Public Charitable Trust Act.

Osmosis is a therapy centre for children who learn differently. We have specialized in identifying the hidden talents and nurturing it in a play way method that can make a transformational change.

Facilities at the centre :

1. Remedial help / play therapy
2. Occupational therapy
3. Speech therapy
4. Counselling of Parents and Children
5. Educational games library
6. Awareness Workshops for teachers & Parents
7. Identification of children with Learning difficulties.
8. Computer learning centre

Our Work in Schools is to jointly and Identify children at risk for learning Difficulties such as Dyslexia, Dysgraphia and Dyscalculia. Children with these conditions have normal IQ but have difficulties in mastering some or all skills associated with reading spelling and arithmetic .As a result, they cannot keep pace with their peer groups in a classroom. However these children could be high achievers too, if they are diagnosed at an early age, and given adequate support and congenial environment. Remedial therapy is arranged at the centre in consultation with the parents.

The main goal of this centre is to help children with Learning difficulties, by adopting inclusive education with developmental therapy and enhance the growth curve in children.

We at Osmosis believe that children with special needs need not be segregated from the mainstream, but taught under one roof. Research has shown that when normal children mingle with special children, it's a win-win situation. Human abilities like compassion, empathy and value system are enriched when they interact with children with special needs.

Over the years the centre has collected a vast range of educational aids. The games are chosen selectively so as to enhance the cognitive abilities of the child. These aids can be issued from the Osmosis Library.
