

Visit Report of Manthan Educational Programme Society,India

- Manthan Educational Programme Society,India is widely for its inventiveness since 1990's. It has achieved an expertise in initiating a repertoire of activities across India like science awareness programs, science teachers' training, designing and distribution of hands-on science outreach and offshoot materials, designing and conducting science exhibitions and bringing a new dimension to science education.
- It has its own office premises in Ahmedabad at Manekbag, Ahmedabad.
- Manthan gives great significance to curiosity in minds of students, educators and trainees for experiential learning through various expressive mediums – initially through folk art like puppet shows followed by educational tools, radio programs, exhibitions and by creating a massive outreach programme through Hands-on activities and resourceful kits. The goal is to simplify and give quality outreach in the field of science and communication mostly for the youth and the community.
- Presently, Manthan runs a tribal science centre in the Narmada District of Gujarat state and is in the process of establishing an entrepreneurship development training centre for the rural and tribal communities of Narmada.
- Manthan Educational Programme Society,India contributes to Science and Society in the following ways:
 - i. Campaign for Awareness
 - ii. Kits and Modules
 - iii. Science Exhibits
 - iv. Entrepreneurship Development
 - v. Science Centre
