# **ANNUAL REPORT OF PVC**

## **REPORT YEAR-2018-19**

# SETTING UP OF PEARL VOCATIONAL CENTRE

We have designed our centre according to learning environment convenient & comfortable for our specially abled young students for their curriculum.

# YEAR 2017-18 ACTIVITIES

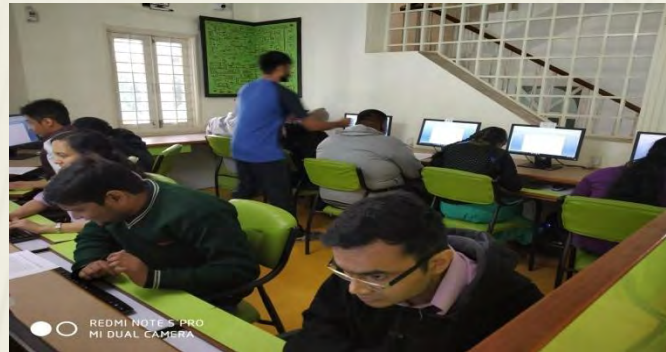

These are some memories for the overview of the activity which they have done during the academic year-2017-18.

# COMPUTER LEARNING

Our students learn Data Entry & Different MS Office programs with Accuracy & Efficiency, and Day by day practice they increase their typing speed.

# RETAIL MANAGEMENT TRAINING

Students at vocational centre learn the entire process of store managing, stock keeping, classification of products by category customer interaction skills, billing, display and shelf arrangement. They learn each aspect of managing a retail outlet through theory session, hands on practice and visits to retail outlets . Money management skill class , practice in retail room & making bills through the electronic billing machine help students gain confidence for open market employment.

# COOKING

Our Students gets training of various techniques of safe cooking through no gas cooking, microwave cooking, using the toasters, grill machine and the OTG for baking. They learnt a variety of sandwiches, quick snacks, beverages like tea, coffee, lemon juice, etc . They also learnt pre and post cooking skills like chopping, dicing, using a grinder, whisking machine, measuring and mixing required to manage a cooking counter independently. Interactive teaching by expert

Professionals and a visit to the actual kitchen of a restaurant helped the students gain a deeper insight in the skill.

# HOSPITALITY

We train our student different types of session of house keeping by practically doing it in center & also by professional trainers so they can be skilled to get employment in hospitality sector.

# DIVET MAKING AND ASSEMBLY WORK

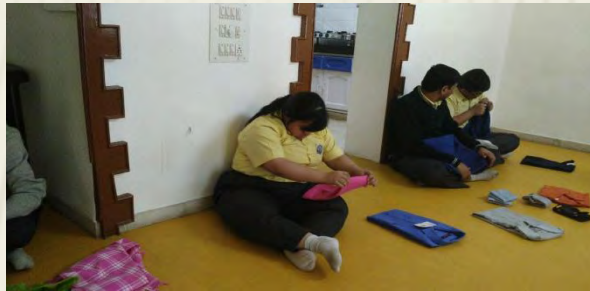

Our students learnt to making divet by using cotton by operating divet making machine & also they doing assembling work for toran & pavitraa like biding ,& sticking by using glue gun.

# HOUSE KEEPING

In house keeping we train them by practically doing the activity so they can live their daily life well mannered and independently.

# CANDLE MAKING

Our student gets training in candle making session entire process of candle making 'how to melt wax, then set it in different shapes moulds and then assembling it.

# WOODEN WORKS SKILL

In wooden work skill ,they learnt different techniques like sand papering , polishing, coloring, spraying, Using glass & foam & other accessories to create beautiful & unique wood décor products.

# VISIT TO SUPER MARKET & NOVOTEL HOTEL

The Students were given an elaborate tour on the Hotel and visited several Departments like House Keeping, Bakery, Restaurant Service etc and observed their working, first hand. The visit offered an insight to Students about putting their learning into practice and made them aware of Career Opportunities. The enthusiasm and support of the Novotel staff was commendable, our students have also visited super market so they know about 'Real Professional World'. In order to support them to live successfully as Special Individuals, these training experiences make their life more easier.

# PARENT TEACHER,TEACHER'S TRAINING

Teacher & Parent had a Parent Teacher Meeting where both of them have discussion about Student 's improvement & which techniques works for student's development & also A Training for Teachers who are the real Change makers of Our Foundation for Students
